Esprit Virtual Event Studio Multi Presenter Events Platform Interface

*“What a Virtual Events Platform ultimately boils down to - be it Zoom, Teams, Cvent, ON24 or the like – a given presenter is provided a visual / **Camera** input & a audio / **Mic** input.*

*Esprits' Virtual Events Studio allows for that **Camera & Mic** Platform input to be a multi-presenter feed that allows for broadcast level integrated Talent, Presentations Graphics, Video Playback, Multi Presenter Presentations / Panels. All supported by studio technicians in the fashion of our live events or a Broadcast news channel. All output at 1080p resolution”*

- Glennon Schlueter, Esprit Virtual Studio Director

Esprit Virtual Event Studio Multi Presenter Events Intake Servers

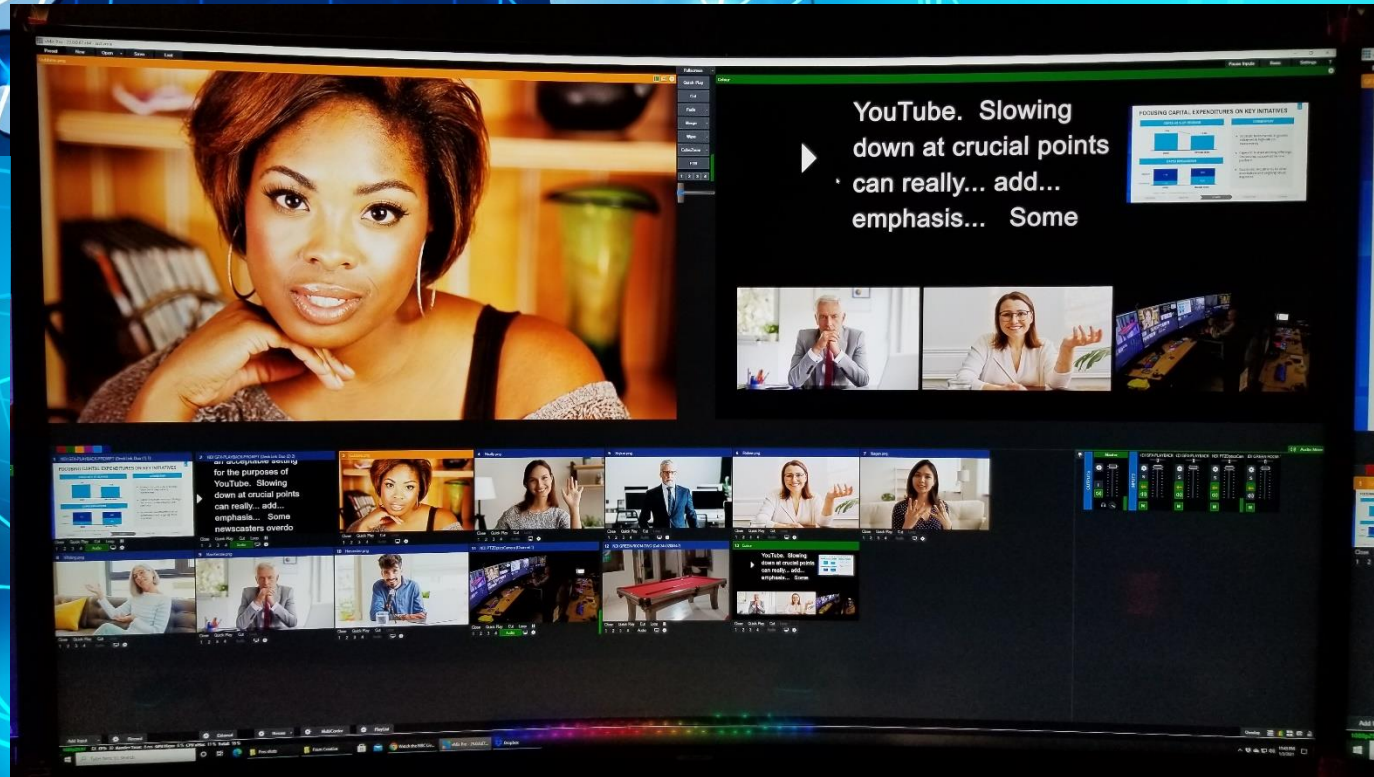

- Up to Sixteen Presenters / Talent acquired into pre-event holding Green Room Servers

Esprit Virtual Event Studio Multi Presenter Events Talent Intake Servers

Esprit Virtual Event Studio Internet Bandwidth & Backup Internet Feed

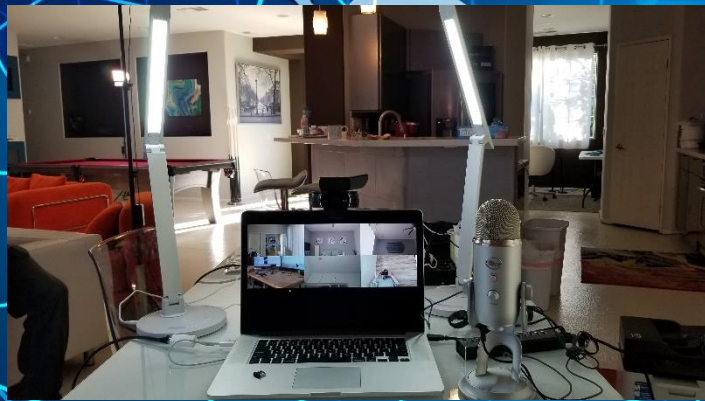

A Virtual Event Endeavour of this scope requires a minimum internet bandwidth of 250Mbps Down / 250Mbps Up

Esprit Studios' Primary Internet Feed is a dedicated, FCC Licensed RF internet feed microwaved of the Indio Hills Radio Tower Complex

Esprit Studios' Back-Up Internet Feed is a Frontier/Vios Fiber Optics Landline bandwidth trunk that has proven to be highly reliable

Esprit Virtual Event Studio Remote Camera Package Options

One Way Purchase DIY Presenter Kits

Utilizing presenter Laptop or Computer. These kits provide a high level of image quality and audio

Broadcast Level Remote Rental Kits

On location technical support provided for Multi Camera & Remote "Studio Location" projects

Esprit Virtual Event Studio

Other Virtual Event Functionality

Open Ended Viewership Content Delivery Network

- 24/7 Event Specific Event Server Support
- Fully Private & Secure Content usage ability
- Unlimited Viewership Server Capability

Pre-Record & Edited Segment Capability

- Allows Talent to create pre-recorded event segments
- Alleviates the Talents stress of “Going Live”
- Allows for review of final content prior to the event

A Greater Level of Virtual Event Cost Flexibility

The Esprit Virtual Event Studio has moved from the Equipment Acquisition Phase to a Phase of Full Implementation. Our cost are much more flexible and not beholden to outside vendor costs.

We currently have a greater level of Event Budget alignment.
